

M.L. McCreedy Home strives for excellence and shares the philosophy of Washington County Hospital and Clinics with the following:

Our Mission.....

to be the central resource for improving health and promoting wellness of all our communities.

Our Vision.....

To provide quality healthcare that puts people first.

Our History.....

Long Term Care began at Washington County Hospital and Clinics in 1968 when the new hospital was constructed. At that time the original hospital was converted to long term care which served this need for many years until regulatory requirements necessitated the building of a new facility in 1988.

The new facility was constructed adjacent to the main hospital, allowing it to be directly connected to the hospital and thus, immediate medical care. This new facility was named after one of Washington's most noted physicians, Dr. McCreedy. The facility's staff follows Dr. McCreedy's dedication to his patients and commitment to excellent care.

Remodeling of resident dining and lounge area completed in 2007.

Excellence in Healthcare, Close to Home

Medical Needs

Outpatient services:

- The McCreedy Home is attached to Washington County Hospital and Clinics. This enables services such as IV therapies, x-rays, physical therapy and physician visits to be provided without leaving the comfort of the hospital complex.

Nursing Services:

- Provided 24 hours a day by licensed, professional nurses.
- Long and Short term admissions accepted.

Rehabilitation:

- Rehabilitation is provided by Certified Restorative Aides for maintenance or improvement at no additional cost.

Medication:

- An In-house Pharmacist and Unit Supervisor perform monthly drug reviews to eliminate and/or reduce medications as appropriate to meet Federal Guidelines.

Personal Needs

Our Certified Nursing Assistants are dedicated and compassionate in their approach to care.

A Care Plan Coordinator evaluates each resident on admission, every 90 days and with significant health changes. Room rates are evaluated with each assessment.

A Registered Dietician regularly reviews dietary needs and is available for individual consultations. Therapeutic diets provided at no additional cost.

Daily housekeeping and laundry services provided.

Assistance provided to off campus appointments if families are not able to accompany residents.

Other services provided in house:

- Beautician/Barber on unit
- Podiatry, Physical Therapy and other Specialists available off unit but within the complex.
- Speech and Occupational Therapy

Social and Spiritual Needs

Our activities department provides a variety of activities, some of these are:

- Physical Exercises
- Mental Exercises
- Community Programs
- Music
- Bingo
- Bible Study

A Social Worker works closely with nursing staff to meet the psychosocial needs of the residents.

Local ministers visit weekly to care for the spiritual needs of the residents.

Fenced courtyard areas adjacent to McCreedy for resident and family pleasure.

Excellent staff/resident ratio
